Applications:

Creamy, pigmented and opaque, decoCrème is especially intended for modern or vintage interior design in the broadest sense. Ideal for decorating in one single coat, the range offers an array of tones: from the darkest to the lightest. The colours, with a creamy consistency, are wear-resistant. The color can be applied vertically or horizontally without dripping in a single coat. The surface must be clean and dry. The colours are dry to the touch in 30 minutes, wait 24 hours before handling. On porous surfaces, coat surface preparation with the auxiliary decoCrème Gesso (black or white) before applying colour.

Use with decoCrème auxiliaries in order for endless varied effects (Gold Glitter, Silver Glitter, Image-transfer gloss gel, Phosphorescent Gel, White sand gel, Déco concrete - Relief paste).

Colours can be worked overlaid and are ideal for modern and traditional techniques (vintage effect).

Perfect for recycling and refurbishing.

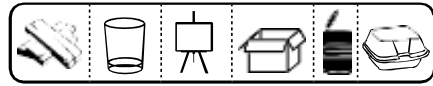

A highly matt and patina effect on metal.

Very good results with sanding and wiping techniques.
