

# ***Product Information***

**pébéo**

**prima**   
**color**

***Liquid***

## **Colours and Formats:**

- 18 classic colours
- 4 metallic colours
- 5 pearl colours
- 4 fluorescent colours
- In 150 ml, 250 ml, 500 ml and 1 l bottles, in colour sets and activity kits

## **Properties:**

- Colours: Vivid and bright even after drying. They can be mixed together with a strong covering power.
- Product base / thinner: Water
- Cleaning the tools: Soapy water
- Children 3 years and under must have adult supervision
- CE marking attesting to the compliance with the requirements of the European Directive on the safety of toys
- Protecting the work: For best conservation, Pébéo water-based gouache varnish can be applied - after the colours are fully dry - using a brush without repeatedly going over with the product to avoid the soaking the layers of gouache. Pébéo gouache spray paint can also be applied (used by an adult) to obtain a finer protection film.

## **Applications:**

Liquid Primacolor is a ready-to-use liquid gouache. It should be shaken before use to homogenize well.

Use pure or diluted, it can be applied to paper, cardboard, Bristol board, plastic, wood, salt dough, ... using brushes, stamps and foam rollers from the Pébéo Children range.

The Pébéo primary colours are perfectly balanced, for improved learning of mixing techniques.

Primacolor Liquid gouache is easy to clean off skin with soap and water. Washing with water enables the removal of all of the binder (dextrans: sugar polymers), which is soluble in water. However, the pigments present in the gouache may have varying affinities according to the surfaces (textile fibres, ...). These colorants can then bind to the fabric almost permanently. In the case of stains on textiles, immediately wash the surface in hot water with soap. Repeat

the operation if necessary until the stain has completely disappeared. For tougher stains, using bleach-based or active oxygen-based textile stain removers can be successful as long as their use is compatible with the garment in question. It is also recommended to use protective aprons for works with children. Keep away from wallpaper, painted walls, untreated wood,... and other materials that cannot be washed.

***Recommendations:***

This information is presented for illustrative purposes. It is advisable to always carry out preliminary tests on the selected surface before starting a piece.
